Harshad Balwan

Frontend Web Developer

🏠 Pune   ⊚ gitProfile   in linkedinProfile   ✉ harshadbalwan108@gmail.com   📞 8605548738

I'm a Frontend Developer with 2 year of web development experience. Proficient in front-end technologies HTML, CSS, JavaScript, Angular, Bootstrap, React , etc. . Strong analytical skills and expertise in building **Dynamic UIs, Integrating APIs,** and Implementing **advanced** features like **Dynamic time zones**. Versatile in leveraging multiple programming languages and frameworks for effective web solutions

EXPERIENCE

VIDAI , PUNE | SOFTWARE DEVELOPER
feb 2024 – Current | Maharashtra , Pune

→ Successfully executed API Integrated for real-time data display, employing observables and asynchronous programming with **async/await** to ensure seamless data flow between frontend and backend.

→ **Reused UI components** (tables, buttons, cards, etc.) and optimized the interface for efficiency and scalability, ensuring responsive design with Bootstrap for cross-device compatibility.

→ Enhanced application performance through module **lazy loading**, reducing **bundle size** and improving speed and efficiency in Angular applications.

→ Implementing **route guards** for role-based access control and authentication . Using **NgRx** for advanced state management

→ Key contributor to the integration of day-wise changes for Embryo Culture, dynamically adapting UI and functionality from day 0 to day 7, while designing a user-friendly appointment booking system.

→ Delivered clean, maintainable code and implemented best practices in UI/UX design and API integration, resulting in scalable, high-performance applications

- **TECHNOLOGY STACK**
    → Angular , HTML, CSS, JavaScript, MySQL, React Material, NgRx , State Management, Apex Chart, Grid Chart,etc.

MIND SPARK TECHNOLOGY , PUNE | WEB DEVELOPER
Dec 2022 – Jan 2024 | Maharashtra , Pune

→ Responsible for implementing conditional user interface logic, ensuring that the UI adapts according to the user's role. Played a key role in integrating **FullCalendar** and **Calendar UI** components into the project.

→ Successfully completed the API integration for the project, gaining proficiency in essential concepts such as **Hoisting , DOM Tree** and **asynchronous programming with async/await**.

→ Optimized the codebase, including implementing **pagination**, integrating APIs for user login, onboarding flows, and slot management.

→ Developed a **Dynamic timezone feature**, enabling users to set their business availability based on their local time zone in the frontend and UTC in the backend.

→ Delivered clean, maintainable code by implementing best practices in UI/UX design and API integration, while enhancing user interfaces for responsiveness using Bootstrap, resulting in scalable and high-performance applications..

- **TECHNOLOGY STACK**
    → Angular Js, HTML, CSS, JavaScript, NgRx , State Management,services,etc.

SKILLS

PROGRAMMING

Experienced:
- Angular • React • JavaScript
- Node

Proficient:
- TypeScript • Java • JavaScript
- C++
- MySQL • CSS • HTML
- Data Structures and Algo.

Familiar:
- C • MongoDB • Dotnet(C)

LIBRARIES/FRAMEWORKS

- Angular • NgRx • React
- Redux • Node.js

TOOLS/PLATFORMS

- Git • BitBucket • Docker
- Agile • Jira

EDUCATION

WALCHAND INSTITUTE OF TECHNOLOGY, SOLAPUR
BACHELOR OF TECHNOLOGY
Aug 2018- Aug 2022
Mechanical Engineering
Percentage- 80%
CGPA -9.25

ACHIEVEMENTS

Improved Performance: Enhanced application performance by optimizing load times
Engineering Youth Festival (2019-2020) , Coordinator

LANGAUGES

- ENGLISH • HINDI • MARATHI
