BHUSHAN SURESH BISEN

React Developer

+91 7020206722 | bhushansbisen@gmail.com

SUMMARY

A dedicated and enthusiastic developer with over 3.1 years of extensive experience, passionate about crafting scalable, high-performance web applications. Proficient in leveraging cutting-edge technologies, including React, Redux, and other modern JavaScript libraries. Demonstrated commitment to excellence by consistently delivering robust and efficient web solutions. Eager to contribute expertise and energy to elevate projects to new heights.

Experience

❖ Vision Techno Services Pvt Ltd   2021 **-** PRESENT

- Dynamic professional with **3.1 years** of IT experience -- **React Developer**.
- Strong understanding of all phases in the Software Development Life Cycle (SDLC)
- Experience in developing dynamic and responsive user interfaces using **HTML, CSS, JavaScript, ReactJS, Redux, Nodejs, MongoDB**.
- Strong experience Web based application by using ReactJS.
- Having experience in **HTML, CSS, and JavaScript**.
- Hands-on experience with React Hooks, Context API, Routing, etc.
- Involved in developing a custom framework based on ReactJS, and Redux with NodeJS.
- Knowledge of Versioning controlling tools like GIT, and GitHub. Hands-on experience in tools VS Code, NPM, and Babel. Ability to adapt quickly to new environments and technologies.
- I have working with Agile-Scrum Methodology. Good Team player and also can work independently in a time-sensitive environment.

PROJECT

- ❖ **Project: Business Assets Management System**

- ❖ **Platform Environment: HTML, CSS, Bootstrap 4, JavaScript, React JS**

Developed a Business Assets Management System to offer users a comprehensive, turnkey solution for efficiently tracking and managing company assets. Stakeholders can easily monitor assets through the utilization of barcode stickers affixed to each item. This integrated system enables the company to uphold accurate records of assets, facilitating easy retrieval during company audits, annual maintenance, and various operational processes.

- ❖ **Project: Vehicle Type Approval System**

  - ❖ **Platform Environment: HTML,CSS, JavaScript, ReactJs, Redux, NodeJs, MongoDB, Git, Postma**

Developed an advanced Automotive Testing Infrastructure to assist automotive manufacturers, government agencies, and organizations in comprehensive vehicle testing, failure analysis, and R&D. The system supports various vehicle types, includingself- driving cars, alternative fuel vehicles, hybrids, trucks, motorcycles, vans, jeeps, utility vehicles, and SUVs. It ensures rigorous testing for all vehicle components, such as chassis, transmission, air conditioning, exhaust, hydraulics, seat belts, tires, brakes,electronics, mirrors, hoods, lighting, steering, fuel systems, and heating. The system is essential for obtaining government-mandated certificates, ensuring vehicles meet regulatory standards and compliance requirements.

ROLE AND RESPONSIBILITY

- I am Responsible for handling the day-to-day issues and fine-tuning the applicationfor enhanced performance.
- I am working on Front-end part of the application in React using Axios/Fetch tocreate the API's and maintaining the database.
- I am involved in SDLC of tracking the RGA, design, and development.
- Creating the React Components.
- I take part in code reviews and create documentation for reference.
- Contribute to analysis and design of new requirements and bug fixing.
- I am managing code versioning with GitHub.
- I am also involved and work with graphics designers.
- Responsible for Testing the API by using Postman Tool.
- Responsible for creating the React Re-Usable Components.
- Responsible for creating various events and handling them using JS.
- Validation UI'S.

EDUCATION

- ❖ **Graduation** from Government College of Engineering, Chandrapur   JULY 2021
- ❖ **HSC** from State Board   MAY 2017
- ❖ **SSC** from Sate Board
  APRIL 2015

DECLARATION

I hereby declare that the above information given is true and complete to the best of my knowledge.Date: Till Present

Place: Pune
