SUMMARY

Dedicated Frontend Developer with 3.5 years of experience in designing and developing responsive web applications. Proficient in HTML, CSS, and JavaScript frameworks, with a strong focus on creating seamless user experiences by transforming design prototypes into high-quality code. Adept at working collaboratively in team environments, utilizing modern tools and technologies to enhance functionality and performance.

WORK EXPERIENCE

Frontend Developer , Cognizant Technology Solutions   **Feb,2022 - Present**

- Developed and maintained responsive web applications, improving user engagement by 30% through intuitive design and functionality.
- Collaborated with UI/UX designers to implement and optimize web layouts and features, leveraging Figma and Adobe XD for prototyping.
- Enhanced application performance using Redux and Flux for efficient state management, reducing loading times by approximately 20%.
- Conducted thorough testing and debugging of applications using JEST, ensuring high-quality deliverables and minimizing post-deployment issues.

CAN Pathways Immigration   **Jan2021 - Dec 2021**

- Successfully delivered web solutions for multiple projects, including an e-commerce website which resulted in a 25% sales uplift.
- Played a key role in designing single-page applications that improved navigation and user experience, leading to increased customer satisfaction.
- Implemented SEO best practices to enhance visibility, contributing to a 40% increase in organic traffic.

PROJECTS

SailGp Media hub

- Objective: Create a robust media hub platform to aggregate multimedia content for users.
